

A EUROPEAN RESEARCH PROJECT

- work organisation restructuring in globalised value chains
- workplace innovation, use of knowledge and flexibility
- time use, skills and the quality of life of individuals
- the role of policy, institutions and the social dialogue

A COMPREHENSIVE RESEARCH AGENDA

- innovating theories and concepts on changes in work
- valorising existing statistics and contributing to their European convergence
- combining organisations, individuals and the institutional context in case study research
- comparing changes in work in a regional perspective
- developing training on comparative research
- involving the scientific community beyond the project
- applying gender mainstreaming
